Power Snow Tube

The Power Head Snow Tube works by compressing air without a pump. Compact and powerful, it is designed for easy use. Low noise and very reliable, it can be used either laid-out flat or suspended, and is suitable for entertainment, concerts, theatre and studio TV. This machine comes with its own support and 5L case, as well as fast connection independent-devices.

Projection **10 to 12 m**

Bubble - Bulle - Seifenblasen - Burbuja Bolha - Bolla - Zeepbellen

Power Bubble Tube

The Power Head Bubble Tube will produce a large amount of bubbles, and may be used either suspended or laid-out flat. Designed for easy operation, low noise and high reliability, this machine adapts perfectly to animation, concerts, theatre and studio TV. The bubble size provides a spectacular visual presence

Power Fragrance Tube

The Power Head Fragrance Tube allows you to change the fragrance in seconds to create your own olfactory environment. It is compact but suitable for medium sized volumes. It integrates performance technology and specialises in the dissemination of perfume. Using 100% natural essential oils, it creates a fourth dimension. You will thus be using a rarely used sense: Smell. Available in mono and duo.

Power Snow Tour DMX

Power Snow Tour

The Power Snow Tour is specifically designed to address the harshest working conditions: Thermally insulated and soundproofed, its use is suitable for all types of entertainments, both outdoors and indoors. Used with our XT-Snow Fluid RTU, it will give you truly exceptional performance. Quiet and compact, this machine is fast becoming the indisputable benchmark of flight case machinery. It's truly tailored for the road.

Power Ice Tour 20 STD & DMX

Dry Ice Basket Capacity 20 Kg

Power Ice Tour 20 DMX

The Power Ice Tour is the ultimate in low smoke! It is one of the finest stage effects further enhanced by Universal-Effects. Its power ranges from 3 to 9 Kw, depending on options. Equipped with a basket on a cylinder with a 20 kg dry ice capacity, its duration is effective from 2 to 4 minutes. The smoke produced is very white and high density. It allows for a double effect: Either a giant wave of nearly 2 meters high crashing like a Tsunami,

or a carpet of white and dense low smoke. The diffusion is extensive thanks to the 2 outputs of 300mm, allowing wide stage coverage. The version is equipped with a DMX-512 mode, a timer and a LOCAL mode. The high level of security is striking in terms of both power level and ease of use.

Power Ice Tour 20 STD

This version is equipped only with a LOCAL mode.

Hot Water Tank Capacity 130 L

Power Ice Tour 40 DMX

Dry Ice Basket Capacity 40 Kg

The Power Ice Tour is the ultimate in low smoke! It is one of the finest stage effects further enhanced by Universal-Effects. It has a power of 18 Kw. Equipped with a basket on a cylinder with a 40 kg dry ice capacity, its duration is effective from 3 to 6 minutes. The smoke produced is very white and of a high density. It allows for a double effect: Either a giant wave of nearly 2 meters high crashing like a Tsunami, or a carpet of white and dense low smoke. The diffusion is extensive thanks to the 2 outputs of 300mm, allowing wide stage coverage. It is equipped with a DMX-512 mode, a timer and a LOCAL mode. It is entirely controlled by a dedicated controller via a touch screen. The high level of security is striking in terms of both power level and ease of use.
