

UE Head Wind 350

Item Code : PFPFWI001119

The UE Head Wind makes it possible to direct the wind in a concentrated beam.
Used without a head, our bases produce a powerful and wide wind effect.
The head doubles the range of the airflow by reducing the opening of the effect.
It also creates an acceleration phenomenon by increasing the wind speed.
It is advisable to equip yourself with a power variator to precisely control the desired effect.

NOMENCLATURE :

- 1 x UE Head Wind 350

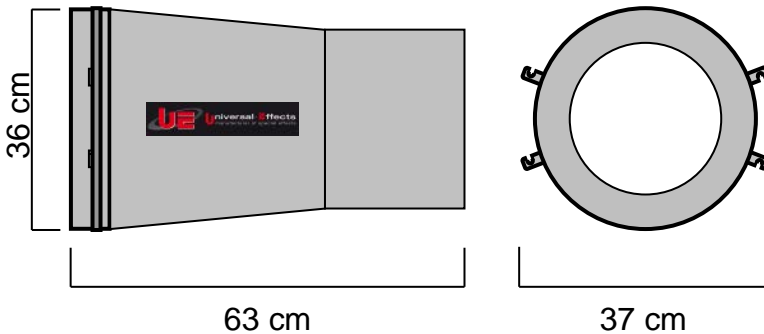

TECHNICAL SPECIFICATIONS :

Size : 63 x 37 x 36 cm

Weight : 3.8 Kg

FEATURES :

Wind directed and accelerated.
Allows precision and significant scope.

BASES USABLE :

- UE K- Base 350
- UE ST- Base 350
- UE XT- Base 350

SPEED AND WIND FLOW :

On UE K-Base 350 the output speed is 50Km / h with a flow rate of 80m³ / min.
On UE ST-Base 350 the output speed is 71Km / h with a flow rate of 144m³ / min.
On EU XT-Base 350 the output speed is 64Km / h with a flow rate of 51 m³ / min.

Made of ALUMINUM, the Head Wind 350 is built to last. Each element has been chosen for its quality and efficiency.
