

PremiumFluids

Special effects in bottles

XT-SMOKE FLUID

QUICK DISPERSION

THE THEATER'S ONE

XT-LIGHT

For a low density and quick dispersion smoke

XT-MEDIUM

For a medium density and quick dispersion smoke

XT-HIGH

For a high density and quick dispersion smoke

XT-EXTREME

For a very high density and quick dispersion smoke

XT-OUTDOOR

Especially for outdoor use
Creates a very high density smoke

ST-SMOKE FLUID

STANDARD DISPERSION

THE FAMOUS ONE

ST-VOLCANO

Technical smoke fluid
For a CO₂-type effect

ST-LIGHT

For a low density and standard
dispersion smoke

ST-MEDIUM

For a medium density and standard
dispersion smoke

ST-HIGH

For a high density and standard
dispersion smoke

ST-EXTREME

For a very high density and standard
dispersion smoke

HD-SMOKE FLUID

SLOW DISPERSION

THE LONG LASTING ONE

HD-LIGHT

For a low density and slow dispersion smoke

HD-MEDIUM

For a medium density and slow dispersion smoke

HD-HIGH

For a high density and slow dispersion smoke

HD-EXTREME

For a very high density and slow dispersion smoke

HD-OUTDOOR

Especially for outdoor use
Creates a very high density smoke

HAZER FLUID

4 DIFFERENT CHOICES

HEATING ELEMENT AND COMPRESSOR

HZ-LIGHT

For a medium density fog
For heating element equipped machines

HZ-HIGH

For a classic density fog
For heating element equipped machines

C-SPECIAL

For a classic density fog
Only for compressor equipped machines

U-SPECIAL

For a pure white classic density fog
Only for ultrasonic equipped machines

FOAM FLUID

3 CONCENTRATION RATES

EFFICIENCY & SECURITY

D-FOAM 10%

Mix with water to neutralize
foam after use

CC-2 to 3%

The most used for a classic
density foam

HC-0.7 to 1%

High concentration - Stock optimization
Creates a classic density foam

LC-3 TO 4%

Low concentration
Creates a medium density foam

SNOW FLUID

READY-TO-USE OR CONCENTRATED

EASY TO USE

READY TO USE

Perfect for a quick and standard use

CC-5 to 10%

Concentrated for several kinds of use
Permits to create from light to dense snow

BUBBLE FLUID

READY-TO-USE OR CONCENTRATE

THE COLORED ONE

CC-40%

Concentrated, particularly usefull for high capacity tanks (60, 200 and 1000L)

READY TO USE STANDARD

Perfect for a quick and classic use

READY TO USE FLUORESCENT

Ready-to-use fluid with Fluo additive
For UV lights reactive bubbles (Ultraviolet)

FIRE FLUID

THE SPECTACULAR ONE

Especially developed for :
«UE FIREJET», «UE FIRESTAR» and «UNITED FIRE» ranges

YELLOW

Easy to use fluid
Safe for Nature

Shipment by ROAD/BOAT/PLANE
Low odor, low smoke

NEW DRUMS DESIGN

AVAILABLE IN 2,5 / 5 / 10 and 20 LITERS

GRADUATED

Our drums are graduated for an optimal use

USEFULL

Recessed handle for a better ease of use

RESISTANT

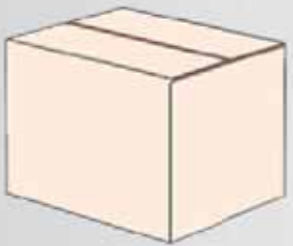

Their thickness permits our drums an important durability

STACKABLE

For a better stock optimization, our drums are stackable

NEW PACKAGING

KRAFT BOX
WATER RESISTANT

4 x 5L
or 6 x 2.5L

BOX PALLET
4 OR 5 LEVELS

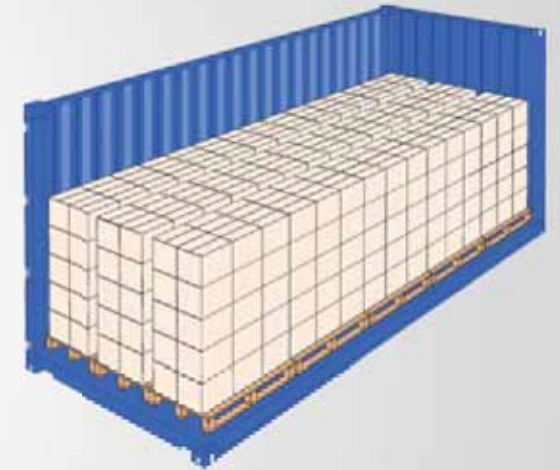

Pallets also available in
60x80cm - 75x115cm - 100x120cm

BULK PALLET
6 LEVELS

CONTAINER
CUSTOM-MADE

Layout
on demand

KRAFT BOX

Compact and resistant

BOX PALLET

Horizontal level mix possible

BULK PALLET

Half bulk mix possible

CONTAINERS

Available in 20 to 40 feet
